
Aleph Installation Kit asking for the "mount point"

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

The Aleph Installation Kit (AIK) is asking for the "mount point" (in step 6.3). What is this?

Resolution:

The mount point is defined in aleph_start:

```
setenv ALEPH_MOUNT /exlibris/aleph
```

("exlibris/aleph" is the normal, as-delivered value.)

See KB 16384-25361 for more.
