

## Your find request found too many entries. Refine your request

- **Article Type:** General
  - **Product:** MetaLib
  - **Product Version:** 3
- 

### Description:

Searching for resources of type "Library" in the MetaSearch module leads to the following message "Your find request found too many entries. Refine your request". What does this mean?

### Resolution:

This means that the "Library" type has more than 100 resources.

By default, MetaLib will not display more than 100 resources on the MetaSearch page. In such cases, users should refine their search.
