 - **Product Version:** 3
 - **Relevant for Installation Type:** Dedicated-Direct; Direct; Local;
-

Question

How do I schedule an update / re-indexing of the A-Z list using a cron job?

Answer

Access our server_admin_util feature on the Unix side of the SFX environment :

```
da
./server_admin_util
```

and select Option 7 (AZ Index) :

From the resulting A-Z Index Options menu, choose Option 3 to schedule the A-Z list build.
