-

Description:

It seems we have patrons who lack a z308 type 01 (barcode). Can you give us SQL to locate such patrons?

Resolution:

The following SQL will do that:

```
> s+ xxxnn <where xxxnn is your $usr_library>
```

```
SQL> select z308_id from z308 where substr (z308_rec_key,1,2) = '00' minus select z308_id from z308 where substr (z308_rec_key,1,2) = '01';
```
