## item-04 report retrieve by call number

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 16.02
- 

### Description:

When running the item-04 report all of our scanned in barcodes show up as missing and in the status block it show the items as Not in Status.

I have run this report several times with various items checked and unchecked and get the same result.

Please note the pc\_tab\_expand.field.eng table has a Item processing status of Not in Process so I did comment out .  
What should be done?

### Resolution:

You probably refer to the "Not in Scope" message. If so, please try to run the report with the values of "From" and "To" with the full Item Call Number indication, as appears in the Item information in the GUI, or in the report, such as:

From: \$\$kE\$\$hAND

To: \$\$kE\$\$hDIL

This report runs on this field, of the Z30 record:

Barcode 31510000037284, ADM 000016698:

02 z30\_call\_no\_type .....1

02 z30\_call\_no .....\$\$kE\$\$hAAR <--- this field

02 z30\_call\_no\_key .....1 e aar

Barcode 31510000220765, ADM 000014273:

02 z30\_call\_no\_type .....1

02 z30\_call\_no .....\$\$kE\$\$hACK <---

02 z30\_call\_no\_key .....0025790926;NO

(keywords: p-item-04 p\_item\_04 item\_04)

---

## Additional Information

item-04
