
UEX 19-20: Dependency between UEX-version and Aleph 20 SP-level

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

Is there any dependency between version of UEX-kit (19-20) and SP-level of target system (Aleph 20)?

Resolution:

Yes, there is.

In Aleph 20, Minor Releases might have mandatory(!) implementation notes. If a new minor release is released also a new UEX-version is released with additional steps to perform these mandatory changes in your customer environment.

Therefore we highly recommend always to use the latest UEX-version from our ftp-server.
