
LCCLASS_VW:error ORA-01722 invalid number

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 7.0.4
-

Description:

Bug Report Form for Issue 16384-17089

Server platform(s) affected: All

PC OS (if applicable): N/A

Browser & version (if applicable): N/A

Release(s) replicated in: 2007.0.4

Last version without bug (if applicable): N/A

Expected results:

LCCLASS_VW should return all relevant results, without crashing with a numeric conversion error

Actual results:

A query that includes LCCLASS_VW will randomly die with ORA-01722 invalid number.

Workflow implications: Some queries including LCCLASS_VW will not run

Replication steps: On customer machine, select * from lclass_vw;

Other information:

Workaround: Create new procedure called "safe_to_number"

```
create function safe_to_number(txt in varchar2) return number is
begin
return to_number(txt);
exception when value_error then
return null;
end safe_to_number;
```

Use this instead of the built-in to_number in the lclass_vw

Resolution:

Fixed in Voyager 8.2.2.
