
No EXT01 environment.

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 16.02

Description:

The EXT01 environment is missing. I have added the EXT01 library in the aleph_start file and in the aleph_start.private.
What seems to be the problem?

Resolution:

See KB 16384-35569.

Additional Information

EXT01, create library
