

Request Oracle Patch 8350262:

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 19.01
-

Description:

Please provide me the following patch to fix a bug in Oracle Enterprise Manager:

Patch 8350262:

CREATE DBCONSOLE CERT WITH 10YEAR VALIDITY

Oracle Database 10g Enterprise Edition Release 10.2.0.4.0 - 64bit SPARC

Size: 39.5 KB

<https://updates.oracle.com/download/8350262.html>

This patch is part of the solution to an SR I opened with MOS. I cannot download this directly as we get our Oracle patches from Exlibris.

Resolution:

[From Ex Libris:] This patch is relevant for DB version 10.2 only (and not 11g). We are no longer releasing PSU's for version 10.2.

We recommend that our customers upgrade to Aleph 20/21 / Oracle version 11.

See KB 8192-9927 for the Ex Libris Oracle Critical Patch Update process.
