

## After oclc load, can't see previous Catalogers

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 21
- 

### Desired Outcome Goal:

After loading record from OCLC, the list of the record's catalogers only displays the OCLC transfer and none of the previous catalogers.

### Procedure:

1. Add the following line to the corresponding entry of `./xxx01/tab/tab_merge_overlay`:

05 2 Y CAT

2. Restart the OCLC server (util w/3/7/3)

**Category:** Cataloging (500)

**Subject:** Create / Edit records (500)
