## Installing DBD-mysql perl module: fatal problem running "make install"

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 18.01
- 

### Description:

When trying to install DBD-mysql-4.011, had fatal problem when running the "make install" part.

### Resolution:

This problem was solved by removing the -xstrconst and -mt options from the Makefile:

```
# remove -xstrconst and -mt
# diff Makefile.dist Makefile
152c152
< INC = -I$(DBI_INSTARCH_DIR) -I/usr/sfw/include/mysql -xstrconst -mt -g
---
> INC = -I$(DBI_INSTARCH_DIR) -I/usr/sfw/include/mysql -g
```

Our system is

Currently running SUN\_OS\_2

Oracle 102

Service Pack: 1613

[Thank you to Margaret Rankin at UC - Santa Barbara for supplying this Resolution.]
