A_WARNING: z73 was not added to file_list under pwd00

A_WARNING: z73 was not added to file_list under sta30

A_ERROR: cannot find data in file_list in pwd00

ERROR at line 1:

ORA-00942: table or view does not exist

A_ERROR: cannot find data in file_list in sta30

A_ERROR: The table z73 does not exist in pwd00.

A_ERROR: The table z73 does not exist in sta30.

A_ERROR: The table z73 does not exist in pwd00.

A_ERROR: The table z73 does not exist in sta30.

A_ERROR: The table z73 does not exist in pwd00.

A_ERROR: The table z73 does not exist in sta30.

A_ERROR: The table z73 does not exist in pwd00.

A_ERROR: The table z73 does not exist in sta30.

Step 1018

A_WARNING: The table z69 doesn't exist in pwd00.

ERROR at line 1:

ORA-00942: table or view does not exist

A_WARNING: The table z69 doesn't exist in sta30.

Resolution:

I was able to create the Z129_ID2 with util a/17/2.

I found that the Z31_ID6, Z31_ID7, and z37_id7 already now exist.

The z403 in sta30 can be ignored.

Everything with regard to z73 in pwd00 and sta30 can be ignored. (See KB 8192-3287.)

The z69 table is in your sta30 file_list but did not exist. I used util a/17/1 to create it.
