## The index Z410\_ID9 couldn't be created

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Description:

In Step 1018 of UEX Kit 18-19 we see this error message:

A\_ERROR: The index Z410\_ID9 couldn't be created in abc40.  
Step end 1018

### Resolution:

Please use UTIL A 17 2 to create index z410\_id9 manually:

Enter table name to Create all tables' indexes

OR

index name to Create a specific index (all/table-name/index-name): z410\_id9

Note: Oracle index z410\_id9 was introduced by rep\_change #003412 (Aleph 20) and is used in SLNP-communication.
