
Problem using Library of Congress z39 gate

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 19.01
-

Description:

We're trying to do a "locate similar record" search using LoC but it is returning the error message: "z39.50 target error: Unsupported attribute type. Addinfo:0".

Resolution:

In table \$alephe_tab/z39_gate/z39_gate_LOC.conf is an error in line
find WAU u=1 t=l,r,b w=pw c=1

There must be "s=pw" instead of "w=pw".

Please change this and restart the z39-gate.

Additional Information

Library of Congress Unsupported attribute type
