

Response option dropdown list

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
-

Description:

Where do I edit the "Response" option dropdown list in the borrowing and lending requests tabs? I would like to add more options and to modify the text (for example, from "Message" to "Message to supplier").

Resolution:

The responses are defined in the GUI file `./ill2/tab/eng/window.dat`.

The relevant entries begin with

BorResponse....

and

LendResponse...

You cannot add new responses, just modify the text. Also: changing the order of the BorResponse or LendResponse entries in `window.dat` does not change their order in the dropdown. That would require a program change.

Additional Information

Response dropdown list borrowing and lending request
