
Oracle Data Pump: ORA-29532: Java call terminated by uncaught Java exception:

- **Article Type:** General
 - **Product:** Aleph
-

Description:

I running the Oracle Data Pump from the command line, using this command:

```
csh -f oracle_expdp_aleph_libs > & $alephe_scratch/oracle_expdp_aleph_libs.mmdd.log &
```

I immediately get the following error message:

ERROR at line 1:

ORA-29532: Java call terminated by uncaught Java exception: java.lang.SecurityException: policy table update

SYS:java.io.FilePermission, <<ALL FILES>>

ORA-06512: at "SYS.DBMS_JAVA", line 313

ORA-06512: at line 1

Resolution:

Before doing the oracle_expdp_aleph_libs, you need to do the following:

```
s+ ALEPH_ADMIN
```

```
SQL> grant JAVA_ADMIN to aleph_admin WITH ADMIN OPTION;
```
