
Include date (not just the time) in ue_nn log entries

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 19.01
-

Description:

The ue_nn logs entries currently only show the time (such as this in the run_e_01 log):

```
HANDLING DOC NO. - USM01.000051870 11:24:31  
HANDLING DOC NO. - USM01.000051870 11:40:01  
HANDLING DOC NO. - USM01.000051870 11:40:32
```

Since ue_01 can be up for multiple days (or even weeks) at a time, the *date* needs to be included in this log, like this:

```
HANDLING DOC NO. - USM01.000051870 2009-01-22 11:24:31  
HANDLING DOC NO. - USM01.000051870 2009-01-22 11:40:01  
HANDLING DOC NO. - USM01.000051870 2009-01-22 11:40:32
```

Resolution:

The date has been added to the ue_01, ue_08, and ue_21 logs:

```
v20 rep_change 3280  
v21 rep_ver 17060
```
