## Is there a document available for SMS server configuration?

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 19.01
- 

### Description:

In the v19 System Librarian Guide, Circulation, there is a reference to documentation on how to set the SMS server in v19. Is there an SMS server for v19? If so, is there documentation available?

From v19 System Librarian Guide, Circulation, page 132:

"Note: Sending SMS messages depends on configuring and activating the SMS Server. Please relate to SMS Server documentation for information on the required configurations for the SMS Server."

### Resolution:

SMS is supported in v19.

You can find out more about it on the Documentation Center in the following location:

Cross-Product > SMS Proxy > SMS Proxy User Guide.pdf

Note: SMS is not a separate server. It functions as a Proxy and is accessed via the Web / X-services. It does not require a separate license.
