

## user-provided report name in report email notification

- **Article Type:** General
  - **Product:** Verde
  - **Product Version:** 2
- 

### Description:

When email notifications about general reports of e-products are sent out, there is nothing in the email to indicate which report has completed, and nothing in the linked report itself that tells us which report we are looking at. A user-provided report name should be included in the email message.

### Resolution:
