## My Basket And e-Shelf Limits

- **Article Type:** Q&A
  - **Product:** Aleph
- 

---

### Question

Is there a limit to how many records can be saved under My Basket and My e-Shelf in the Web OPAC? Where Are My Basket And e-Shelf Limits Defined?

---

### Answer

- My Basket and My e-Shelf limit is defined by parameter setenv `www_myeshelf_limit` in `./alephe/www_server.conf`.
- The maximum number of records as well as the default number is 500.

---

### Additional Information

This is from the Aleph v22 System Librarian's Guide - Web OPAC, Chapter 22 (Setting up My e-Shelf) :

Each folder (including the BASKET folder) can contain a maximum of 500 records.

You can define the maximum number of records allowed in a folder by setting the

`www_myeshelf_limit` environment variable in the `www_server.conf` file.

If the variable is not defined, the default for the maximum records in each folder is 500 records.

**Category:** Web OPAC (500)

**Subject:** My-eShelf (500)
