
Bursar:individual refund information transferred in patron mode

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 7.1.0
-

Description:

Bug Report Form for Issue 16384-14897

Module(s): Bursar

Server platform(s) affected: Solaris

Release(s) replicated in: 7.1.0-7.2.4

Expected results:

When using the `-p` patron mode, Bursar transfer should not transfer any specific fine/fee information.

Actual results:

When using the `-p` patron mode, Bursar transfer records individual fine information for Bursar Refunds.

Workflow implications: The Bursar's office program that processes the Bursar SIF may not be able to process individual fine information.

Replication steps:

1. Circulation>Patron>Fine/Fee>Post>Bursar Refund
2. In `/m1/voyager/xxxdb/sbin`, run `PBursar` using the `-p` parameter and make sure that the patron from step 1's patron group is in the config file.

Resolution:
