

Deleting ALL Patrons from TEST

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 17.01
-

Description:

We would like to delete ALL the patron records in the TEST region.

Could you advise if the following strategy is correct?

1. run p-cir23
2. run p-cir32
3. run p-cir25

Resolution:

Yes, you would run p_cir_23 and p_cir_32. You do not need to run p_cir_25 since the preceding jobs update the z353 themselves.

(It is necessary to run p_cir_25 only if you delete patron records using SQL.)

You may want to consult KB's 16384-12929 and 16384-2625 in regard to how p_cir_23 functions.
