## p\_acq\_04: missing field : 020 S in library: MBB01

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 16.02

---

### Description:

I am running p\_acq\_04 in ABC50. This is what I found in "ABC50\_p\_acq\_04.log":.

/tmp/utf\_files/exlibris/aleph/u16\_1/abc01/tab/tab01.eng.

Load: /tmp/utf\_files/exlibris/aleph/u16\_1/abc01/tab/edit\_field.eng.

Load: missing field : 020 S in library: ABC01.

Note: Missing edit field line for L 020 S.

Load: missing field : 022 S in library: ABC01.

Note: Missing edit field line for L 022 S

### Resolution:

This has to do with editing of the 020 and 022 for display in the order index (that's what acq\_04 is building). If, after the job is done, you don't like the search/display of the ISBN/ISSN in the order index, then you may want to add.

1 L 020# # S ....

1 L 022# # S....

to mbb01/tab/edit\_field.eng and rerun.
