

SIP2 server: Setting up language of error-messages

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 22
-

Desired Outcome Goal:

In SIP2 server messages should be called from German file `./error_ger/sip2_server` instead of English file `./error_eng/sip2_server`.

Procedure:

In `./xxx50/prof_library` change
`set_symbol CON_START ENG`
to
`set_symbol CON_START GER`
to change the default language of your xxx50-library.
