
How to delete groups of files from \$alephe_scratch

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 21

Desired Outcome Goal:

Easily delete groups of files from \$alephe_scratch.

Procedure:

* util x/1 ("Clean alephe_scratch") can be used for this purpose.

* The \$alephe_root/aleph_startup file includes "Cleanup TMPDIR/LOGDIR" procedures. The same could be added for \$alephe_scratch.

Category: System Management (500)
