## p\_manage\_02: "loop entry" / "next entry" messages

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 17.01
- 

### Description:

I have quite a few entries in the log of the type:

```
loop entry AU LABRAMSKY SASHA next entry AU LABRAMSKY SASHA 81823
loop entry AU LABRAMSKY SASHA next entry AU LABRAMSKY SASHA 91301
loop entry AU LABRAMSKY SASHA next entry AU LABRAMSKY SASHA 96855
loop entry AU LABRAMSKY SASHA next entry AU LABRAMSKY SASHA 97897
loop entry AU LABRAMSKY SASHA next entry AU LABRAMSKY SASHA 98155
loop entry AU LABRAMSKY SASHA next entry AU LABRAMSKY SILVIA H 26656
```

Are these anything to be concerned with?

### Resolution:

It seems that these are diagnostics which have been placed in the program. They may be ignored.
