## Fines not being generated for Reserve loans

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 17.01
- 

### Description:

We have been experiencing some difficulty with the generation of fines for one of our sublibraries.

The sublibrary, ABCRB, item statuses - Reserve 3 Hour (In Library Use) and Reserve 3 Day Loan - are not generating fines for patron statuses 51, 56, 57 and 64. This sublibrary was brought on approximately 1 month ago.

### Resolution:

Looking at the third item, barcode 1500000023, we see that it belongs to sublibrary ABCSB (not ABCRB), with item status 03:

```
02 z30_rec_key \  
03 doc_number .....000263241  
03 item_sequence .....000010  
02 z30_barcode .....1500000023  
02 z30_sub_library .....ABCSB  
02 z30_material .....BOOKS  
02 z30_item_status .....03
```

This is the Z36H loan history record for this loan:

```
01 z36h_loan \  
02 z36h_time .....200804241453497  
02 z36h_rec_key \  
03 doc_number .....000263241  
03 item_sequence .....000010  
02 z36h_id .....001  
02 z36h_number .....000015972  
02 z36h_material .....BOOKS  
02 z36h_sub_library .....ABCSB  
02 z36h_status .....A  
02 z36h_loan_date .....20080423  
02 z36h_loan_hour .....1305  
02 z36h_effective_due_date .....00000000  
02 z36h_due_date .....20080423  
02 z36h_due_hour .....1330  
02 z36h_returned_date .....20080424  
02 z36h_returned_hour .....1453  
02 z36h_item_status .....03  
02 z36h_bor_status .....57
```

<etc.>

util f/2/10 shows this:

Enter item barcode (Q to stop) : 1500000023

RJM: Enter io\_z30

-----  
Load: /exlibris/aleph/u17\_2/alephe/tab/tab100  
-----

Load: /exlibris/aleph/u17\_2/abc50/tab/tab100

RJM: Begin EVALUATE

Enter bor ID (Q to stop) : 001

Load: /tmp/utf\_files/exlibris/aleph/u17\_2/alephe/tab/tab\_sub\_library.eng

Enter bor status [57] (Q to stop) : 57

Z36-BOR-STATUS: 57

Z36-ITEM-STATUS: 03

Z30-ITEM-PROCESS-STATUS:

Load: /exlibris/aleph/u17\_2/abc50/tab/tab16

TAB16 line does not exist <<<<-----

And, indeed, doing a grep for 'ABCSB 03' in tab16, we find that there are no such lines:

ABC50-ALEPH>>grep 'ABCSB 03' tab16

ABC50-ALEPH>>

See KB 8192-4555 for a discussion of overdue fine calculation in general.
