

MAX-SC-SERVERS vs. "MAX-SIP2-SERVERS"

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01, 19, 20, 21, 22, 23
-

Question:

We are testing Aleph with the 3M self-check machine noticed the \$alephe_tab/license file has:

MAX-SC-SERVERS

Since the SC server isn't used anymore, do we need

MAX-SIP2-SERVERS

instead, or is the SC SERVER license still the appropriate one?

Answer:

The software (V.18 and higher) is still checking for the 'MAX-SC-SERVERS' value.
