
Does Aleph support ODBC connection?

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 20
-

Question

Is ODBC connection to Aleph supported by Ex Libris?

Answer

Ex Libris does not provide nor support ODBC driver for connecting to Oracle database of Aleph.

The Aleph GUI Client does not include an ODBC driver.

Ex Libris does not provide any ODBC driver for connecting programs on a Windows PC to the Oracle database of Aleph.

Ex Libris does not support any software that uses ODBC to connect to the Oracle database of Aleph.

If a customer is using an ODBC driver to connect to the Oracle database of Aleph he is acting at his own risk.

If the use of the ODBC driver affects the operation of Aleph the customer will be fully responsible for the consequences
