

p_manage_01 abort

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

I immediately get an "abort" when I submit p_manage_01 [or other index job]

Resolution:

The \$alephe_scratch log has this line near the end:

Library ABC01was already locked

This means that you need to do util c/6 ("Unlock Library") before submitting the job.
