

LKR Type VOL

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16.02
-

Description:

We would have need of information about LKR field of type VOL.. We have found it in edit_doc_999 of USM01 database.

Resolution:

This line is an example of LKR field of a non-hierarchical type.

LKR field was limited to the defined types (UP/DN/PAR/ANA/ITM).

Now it is possible to link a BIB record to another BIB record (without items), with LKR field of a user-defined type.

Just add LKR field \$\$a with your field name (like VOL), and set the edit_doc_999.lng accordingly (with Q in col.10).

Web Opac will display a link to the another BIB record.

Additional Information

LKR, edit_doc_999
