

printing - retaining white spaces in xml files

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 15.2
-

Description:

The spaces that appear in GUI display and in the XML file disappear in the Printout.

Why?

Resolution:

The spaces are preserved in raw XML, but cannot be saved in "normal" printing. This is a result for XML transformation to HTML.

The XML file can be used with another applications in order to show the spaces.

Additional Information

print spaces xml
