
OPAC Course Browsers get results only when preceded by "1"

- **Article Type:** General
 - **Product:** Aleph

-

Description:

OPAC Course Instructor, Course Name, etc., Browse indexes get results only when the name is preceded by the number "1" -- otherwise, they get "Browse request found no entries".

Resolution:

This is because the COU Course Name ACC index and the INS Instructor ACC index Z01_filing_key's begin with "1", such as:

```
03 acc_code .....INS
03 alpha .....L
03 filing_text .....1 ALBAHARI MAURIZIO
```

```
03 acc_code .....INS
03 alpha .....L
03 filing_text .....1 ALVAREZ ANGEL
```

This is because the CNO-1 and CNO-3 fields both begin with a \$\$81 subfield:

```
CNO-1 L $$81$$aModern Liturgy Seminar
CNO-3 L $$81$$aJeffery, Peter
```

You need to change your tab11_acc entries from:

```
CNO#1 COU
CNO#3 INS
```

to:

```
CNO#1 COU a
CNO#3 INS a
```
