Description:

Calendar pop-up not working for date search fields in DE search

Resolution:

In order for the date fields (control/creation_date and control/modification_date) to function as date fields in Management DE Search (i.e. enable calendar pop-up), the following case (aka "lower camel case") for the respective ui_default_text attribute values in repository_indexing_schema.xml should be maintained:

For creation_date - ui_default_text="createDate"

For modification_date - ui_default_text="modificationDate"

Additional Information

DE search, date, calendar
