

## Searching by TITLE also retrieves an IMPRINT result

- **Article Type:** General
  - **Product:** Verde
  - **Product Version:** 2
- 

### Description:

When searching by TITLE, the search retrieves titles that contain the searched string in the imprint as well and not only in the title (as it supposed to).

For example, the title California journal of operations management has the imprint "California State University - Production Operations Management, Inc. - Turlock, CA." When searching for Production and operations management, this title was returned as a result even though the title does not include the word 'production.'
