## Heap space errors in Harvester\_direct process

- **Article Type:** General
  - **Product:** DigiTool
  - **Product Version:** 3
- 

### Description:

If you notice the error "Exception in thread "main" java.lang.OutOfMemoryError: Java heap space" in the harvest log, please do the following:

1) As dtl user, in /exlibris/dtl/j3\_1/digitool/home/system/bin/harvester\_[direct.sh](#), change all the 3 appearances of Dbulk\_size from:

```
-Dbulk_size=1000\
```

TO:

```
-Dbulk_size=200\
```

2) Re-run the harvest.

This configuration prevents the memory crash while there is no performance impact on the harvest

### Resolution:

---

## Additional Information

harvest, error, heap space
