
Upgrade Express: Are Custom Services files in a-tree copied to target?

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 20
-

Question

Does Upgrade Express copy \$aleph_proc and \$aleph_copy Custom Services files from v20 to v21?

Answer

Upgrade Express deals with the u-tree only. If files have been added to \$aleph_proc, \$aleph_copy, or other a-tree directories, those customizations need to be carried over separately from Upgrade Express.
