

## error at the rev-up logs

- **Article Type:** General
  - **Product:** SFX
  - **Product Version:** 4
- 

### Description:

The error "Command did not affect any rows - delete from..." in the rev-up logs is caused by a bug in a SFX KB internal tool and has no affect on your KB.

e.g.:

```
20110424123932:main::run_database_update_from_files:Command did not affect any rows (row: 363): delete from
KB_TITLE_KEYS where TITLE_KEY_ID = 2340000000000072;
```

```
20110424123932:main::run_database_update_from_files:Command did not affect any rows (row: 364): delete from
KB_TITLE_KEYS where TITLE_KEY_ID = 2340000000000073;
```

```
....
```

```
20110424124005:main:Failed loading some records, see log for details.
```

### Resolution:

---

## Additional Information

revision ,kldb log, "Command did not affect any rows", "Failed loading"
