
Removing "Change Environment" button from guest's user interface

- **Article Type:** General
 - **Product:** MetaLib
 - **Product Version:** 3
-

Description:

How do I remove the "Change Environment" button from the guest's user interface?

Resolution:

In the file `./m3_<copy>/insNN/www_v_<lng>/navigation-guest`

Comment out the line which includes the expression: "func=menu-portal" from `<td>` to `</td>` in each language and instance in which you would like the "Change Environment" button to be removed
