

## System is overloaded message

- **Article Type:** General
  - **Product:** Aleph
- 

### Description:

Users get a "System is overloaded. Try later." message when trying to connect to the Web OPAC. What does this mean?

### Resolution:

This message text is in the license-limit file in the \$alephe\_root/www\_eng directory. It is issued when the www\_server license limit is exceeded. (See KB# 8192-481.)
