
SIP2: stopping and restarting the server through the util menu

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

I've stopped and restarted the SIP2 server through the util menu, however our SIP2 machines couldn't connect to the server.

Resolution:

Please make sure you restart the SIP2 server after you've changed directory to your administrative library:

```
dlib XXX50  
util 3/7/5
```

For more information please see a document "How to Set Up a SIP2 Server for Self-Check Systems".

Additional Information

SIP2 restart stop start util
