

tab_loader col.5

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 19.01
-

Description:

Hi - in the header of tab_loader, and the p_file_90 documentation, the "COL. 5 HOL record create method" lists five options, numbered: 0,1,2,3,5.

Is there an option 4 that wasn't included, or is that a typo?

Resolution:

You're right it looks like a missing number, but this is not a typo - option "5" is "Always create HOL record".

Option "4" exists in v20, it is used for special UNION Library (tab100 UNION-LIBRARY set to 3), when Union Library has separate HOL record for each location.

Additional Information

file_90, file-90, tab_loader
