

## Can we create an additional paragraph in Circ notices?

- **Article Type:** Q&A
  - **Product:** Voyager
  - **Product Version:** 8.1.2
- 

### Question

We want to include four paragraphs of text at the end of our Circulation notices, but there are only three trailers included in each section of the NoticeEmail.cfg. Is there a way to add an additional trailer, or to include two paragraphs in the "Trailer3=" line?

---

### Answer

In NoticeEmail.cfg, only text after the = symbol can be edited; no additional items can be added.

---

### Additional Information

Each item must be one continuous string - since anything typed after pressing "Enter" gets ignored by Voyager, text in the trailer lines cannot be modified to appear as two paragraphs.
