

## Count of patrons in Aleph

- **Article Type:** Q&A
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Question

How can a simple count of the number of patrons currently in Aleph be obtained?

---

### Answer

1. dlib xxx50 [where xxx50 is the \$usr\_library]
2. util a /17/11/2 z303 : there is one z303 for each patron so the resulting count corresponds to the number of patrons.

**Category:** Circulation (500)

**Subject:** Patrons
