

How to install with .BAT method?

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.0.0
-

Desired Outcome Goal:

To install only specific Voyager clients on PC via .BAT install method.

Procedure:

1. Follow procedure for .BAT file method of install in Technical User's Guide.
 2. Set EIS_APP= options to install specific Voyager clients desired.
-

Additional Information

.BAT method is not documented for Voyager 8.0 and 8.1.x, but is still available. Refer to Voyager 7.2.5 revision of Technical User's Guide.

Voyager 8.2.0 and higher include option to install Global Data Change (GDC) via .BAT file method. 8.2.0 revision of Technical User's Guide includes .BAT file install information and GDC install option.
