

ILL Request Number Prefix

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

How do we add a prefix to a new ILL Request in ILL2?

This is required by the British Library.

Resolution:

This functionality is now available via the "Supplier Request Number" field.

You will need to implement rep_changes 870 (adding the prefixed number to the Z411 record) and 1167 (adding the field to the BL form) in version 18.

Additional Information
