

Maximum size of z00p record

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 17, 17, 19, 20
-

Description:

It looks like the maximum size of a record in the z00p is about 100k. Is this the case, and if so, is it possible to increase this? We seem to be running into this limit when we try to use the publisher-based OAI server to expose records with many (more than 300) item records.

Resolution:

Corrected by:

V17 - rpc #1140 (this requires a hot fix)
V18 - rpc #1918
V19 - rpc #506
V20 - rpv #15628

Description: Publishing - when the size of a record in xml format (expands included) exceeded 100K characters, it could not be published. This has been corrected.
