

What is Web Authorities?

- **Product:** Voyager
 - **Product Version:** 8.2.0
-

Question

The Voyager 8.2 Release Notes mentions something called Web Authorities. What exactly is Web Authorities?

Answer

Web Authorities is an extension module that allows authority records to be searched & displayed via WebVoyage. Prior to Voyager 8.2.0, Web Authorities was compatible with the Classic WebVoyage interface. Beginning with 8.2.0, Web Authorities is also compatible with the Tomcat WebVoyage interface.
