

Random Assignment of Due Dates

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

Apparently random due dates are being assigned during loan transactions. If I restart the PC server and rebuild the due dates I might get a correct due date assignment for one or two transactions.

Resolution:

Removing the "LOAN check_circ_14_a" line from the abc50 tab_check_circ corrected the problem. See KB 28285.
