

## Bibliographic links between records

- **Article Type:** Q&A
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Question

Is there a limit to the number of user generated link fields in a single record?

---

### Answer

\*The limit is determined by Z103 sequence that is limited to 99

\*The source record (the record in which the link is defined) may have up to 99 links defined

**Category:** Cataloging (500)

**Subject:** Create / Edit records (500)
